

TOUGHBOOK N1 Tactical for Public Safety

THE NEXT GENERATION END USER DEVICE

Tactical teams and first responders require the most reliable devices for search and rescue, wildfire management, situational awareness, security detail at large events and more. The TOUGHBOOK N1 Tactical, next generation end user device is designed specifically for tactical environments leveraging situational awareness applications like Android Team Awareness Kit (ATAK).

FULLY RUGGED AND MISSION-READY RIGHT OUT OF THE BOX

Unlike consumer grade phones, the TOUGHBOOK N1 Tactical end user device is fully rugged on arrival. The 4.7" anti-reflective daylight readable 500 NIT display features rain sensing and glove touch modes to assure that the screen can be clearly read and manipulated in any conditions. The TOUGHBOOK N1 Tactical is built to MIL-STD-810G standards and is designed to withstand extreme environments, including moisture and high heat. With 8 programmable buttons capable of launching any local application, launching and switching between applications is quick and easy.

CERTIFICATIONS: IP66, IP68, MIL-STD-810G and NIAP Common Criteria

DISPLAY: 4.7" high definition 1280 x 720 daylight-viewable, 10-point capacitive multi-touch display with rain sensing and glove touch modes

CPU: Qualcomm® SDM660 2.2GHz Octa-Core CPU/RAM 4GB/Flash eMMC: 64 GB

OS: Android 9 (Pie) OS with powerful Panasonic Productivity+ support and deployment/control tools

DIMENSIONS & WEIGHT: 2.9"x6.1"x0.7", 0.56 lb.

CAMERAS: Full HD 5MP (front) 8MP (rear)

BATTERY: 20-hour life (based on user profile), removable and warm swappable, can fully recharge in two hours (0% to 100%)

SENSORS: Ambient light sensor, digital compass, gyro and acceleration sensors

ENHANCED SITUATIONAL AWARENESS

Panasonic is uniquely positioned to support the needs of public safety with the broadest range of situational awareness (SA) mobility solutions in the industry. Our durable and reliable TOUGHBOOK N1 Tactical end user device coupled with optional Android Team Awareness Kit (ATAK) Server offers an enhanced solution for first responder teams that need to communicate and collaborate in real-time, within and across teams.

ANDROID TEAM AWARENESS KIT (ATAK)

The Android Team Awareness Kit for civilian uses is a suite of software that provides geospatial information and allows user collaboration over geography. ATAK uses the Android system to put information like video, mapping and location information on the N1 Tactical devices used by firefighters and other first responders which enables better team communication in real-time.
